

WEALTH BANKING SERVICES

Enhance your practice with the U.S. Bank Flexible Capital Platform[®]

Liability management represents an important opportunity to grow your practice. The U.S. Bank Flexible Capital Platform[®] makes it easier than ever for you to help clients leverage the power of their balance sheets, allowing them the liquidity access they need, when they need it. The Flexible Capital Platform provides you online access to powerful tools that let you illustrate different lending options, propose solutions and closely monitor the approval process.

The experience begins with accessing the Flexible Capital Platform which is launched conveniently from your desktop. Your entitlements to our proprietary lending platform allow you to efficiently manage your client needs while remaining in full control of the experience. You'll have the ability to:

- **Search and select accounts** to instantaneously download an illustration to share with your clients
- **Complete the application process entirely online** concluding with an e-consent from your client
- **Monitor the status of the approval process** through the Advisor Dashboard to manage your pipeline and the process to set proper expectations with full transparency
- **Access dedicated support** from the Wealth Banking Services team for assistance throughout the process, as well as deal/scenario discussions and structuring
- **Proactively plan** by establishing a U.S. Bank Flexible Capital Line of Credit[®] for clients who may want instant access to funds in the future
- **Monitor loans in force** to identify loans close to or in a call. Drill down in accounts to determine the advance amount for each asset
- **Model what-if scenarios** to calculate the borrowing power of assets held away or in ineligible accounts
- **Manage service requests** for collateral releases, draws, loan modifications, payoffs and more can now be initiated through the platform
